

2/11/67

Dear Bob,

On my return I got your very interesting message that an acquaintance who used to be in Army intelligence said there was a security designation of "crypto" which was above top secret. Very interesting. But I've heard nothing further from that man. Perhaps he'll yet decide to write me.

If possible, can you send me a copy of the Boston Globe story and picture on Manchester-O'Donnell? This is but the beginning. There will be more because, as I told you, M is so wrong and so evil-intending. I've decided to do the book and may have made arrangements on the return trip. I'll know more the coming week.

You people were all very nice to me, and I do appreciate it. Hope the show was well received. I'm looking forward to the Capp and/or Inpect shows. When I get the slides Don Azers is to send to me I'll have duplicates of what you have and I'll write captions and send them to Don.

Arthur took me to the hotel so I didn't use the chit for the cab (enclosed). My additional expenses, all transportation or tips, total but \$15.79, if you can report this to whoever is the right person, possibly Don.

Again, my thanks to you all for your kindnesses, courtesies and help. I really am looking forward to doing it again.

Sincerely,

Harold Weisberg
